Ms. Nidhi Bhaskar
Kanpur

OFFER LETTER

Dear Ms. Nidhi Bhaskar,

Congratulations!

With reference to your application and subsequent interview you had with us, we are pleased to offer you the position of "**Software Developer 1 – Artificial Intelligence Department**" in our organization on the terms and conditions discussed during the interview.

You will be stationed at **Kanpur**.

Your remuneration as discussed and finalized is **Rs. 600000/- Per Annum**, the detail breakup of the same is attached as Annexure-A along with this letter.

A detailed appointment letter will be given to you after you join us.

Kindly bring along with you 3 recent passport size photographs and all original testimonials, Past Organization's Relieving / Experience Letter, Last Salary Slip, Date of Birth Proof, PAN card copy at the time of joining.

You are required to join the company on or before **02-June-2025.**

You have been selected because we believe you have the potential and the desire to meet the high standards of excellence that are the hall marks of **Nuvo AI Private Limited.** We know you have hopes and aspirations of your own, & surely, expectations from us as well. We consider it our obligation on our part to:

- treat you fairly & with respect
- provide open two way channels of communication
- offer suitable recognition for your dedication and excellence of performance

Ours is a growing company, continuously improving and expanding.
We wish to see you grow along with us.

Looking forward to your joining our organization.

Thanking you,

For, Nuvo AI Private Limited

31/5/2025

Dr. H. C. Panjikar
Group Head – Human Capital & Administration

PS :- Please revert with your confirmation of acceptance of this offer letter within two weeks time from date of issue; failing to which the offer letter will be deemed withdrawn.DB

Education

Indian Institute of Information Technology (IIIT) Naya Raipur, Chhatttisgarh **2021 – 2025**
Bachelor of Technology in Electronics and Communication Engineering ***CGPA: 8.06/10***

Delhi Public School Korba, Chhattisgarh **2020 – 2021**
Higher Secondary (CBSE) ***Score: 94.4%***

Experience

Meril Life Science **Jan 2025 – Present**
SDE Intern *IIT Kanpur*

- Developed and optimized medical report workflows using **React.js and Tailwind CSS, improving render efficiency by 30%**.
- Integrated **RESTful APIs** and **reduced code duplication by 20%** to enhance code maintainability.
- Built reusable frontend components with efficient **state management and memoization**.
- Tested components using Vitest and Postman; maintained over **90% test coverage** following TDD practices.
- Deployed application on **AWS EC2 and CloudFront, supporting 1,000+ concurrent users with minimal latency**.
- Managed end-to-end development, testing, and deployment using Git-based workflows in an Agile environment..

Logstrike Technologies **July 2024 – September 2024**
Frontend Developer Intern *Remote*

- Created a high-performance file management interface using **React.js, TypeScript, and AWS S3 APIs**, resulting in a **40% reduction in file load times.**
- Implemented frontend-level caching and state management to prevent redundant API calls, improving file access speed **by 15% and reducing S3 usage costs.**
- Refactored shared React components for better **code reusability, modularity, and maintainability across multiple views and user workflows.**
- Collaborated closely with backend developers to align API integration, added **structured error handling** and loading states to enhance reliability and user experience.

Skills

Languages: C++, Java, TypeScript, JavaScript, SQL, HTML5, CSS3
Web & Framework: React, Redux, Tailwind CSS, Node.js, Express.js, RESTful APIs
Databases & ORM: MySQL, MongoDB, Prisma ORM
Developer Tools: Git, GitHub, Docker, Postman, Redis, Prisma, Vitest, Unit Testing, API Testing, Version Control
Cloud & DevOps: AWS (EC2, ECS, S3, CloudFront), CI/CD pipelines, Agile methodologies, Software Development Life Cycle (SDLC)
Core Concepts:Data Structures and Algorithms (DSA), Object-Oriented Programming (OOP), Operating Systems, Debugging, Code Review and Collaboration, Performance Optimization, Role-Based Access Control (RBAC), Real-Time Communication (WebRTC), Test-Driven Development (TDD), Query Optimization

Projects

XploitShield | *Node.js, Gemini AI* | **May 2025**

- Modeled a **Node.js** backend to apply **Gemini AI** fixes from static analysis, doubling patch speed and **reducing manual work by 40%.**
- Automated branch and PR creation using **GitHub API** to streamline patching.

Secure Test | *React, Node.js, Express, MySQL, Prisma ORM, WebRTC, GitHub* | **February 2025**

- Constructed a secure exam proctoring system with **role-based access**, **WebRTC** for real-time monitoring, and **support for 10+ users.**
- Improved query performance by **20% using Prisma ORM**, managed version control and deployment with GitHub.

Achievements

- Selected for Wipro TalentNext 2024.
